consistent with the Height Act, taking into consideration the ability to			
utilize zone densities, the size of the site, and the relationship of the			
potential development to the existing character of the surrounding areas.			
Action LU-1.2.D: Development on Former Federal Sites	OP	Long-Term	N

employ planning and zoning approaches that provide for the			
integration of the sites into the surrounding fabric of Center City.

Action LU-1.34.A: Station Area and Corridor Planning	OP, DDOT,	Long-Term	N
Conduct detailed station area and corridor plans and studies prior to the	WMATA		
creation of TOD overlays in an effort to avoid potential conflicts between			
TOD and neighborhood conservation goals. These plans should be prepared			
collaboratively with the Washington Metropolitan Area Transit			
Authority (WMATA) and local communities that and should include			
detailed surveys of parcel characteristics (including lot depths and widths),			
existing land uses, structures, street widths, the potential for buffering, and			
possible development impacts on surrounding areas. Plans should also			
address joint public-private development opportunities, urban design			
improvements, traffic transportation demand and parking management			
strategies, integrated bus service and required service facilities, capital			
improvements, neighborhood conservation and enhancement, and			
recommended land use and zoning changes throughout the District.			
Action LU-1.34,B: TOD Overlay Zone Zoning Around Transit	OP, DDOT,	Long-Term	N
During the forthcoming revision to the zoning regulations, The language	WMATA		
should include provisions for mixed land uses, minimum and maximum			
densities (inclusive of density bonuses), parking maximums, and buffering			
and design standards that reflect the presence of transit facilities. Work with			
land owners, the Council of the District of Columbia, local ANCs,			
community organizations, WMATA, and the Zoning Commission to			
determine the stations where such a zone should be applied. The emphasis			
should be on stations that have the capacity to accommodate substantial			
increases in ridership and the potential to become pedestrian-oriented urban			
villages. Neighborhoods that meet these criteria and that would welcome a			
TOD overlay are the highest priority. 306.19			
Use zoning incentives to facilitate new and mixed-use development, and			
particularly the provision of new housing and new affordable housing			
in high opportunity areas to address more equitable distribution,			
should be encouraged.			
Action LU-1.4.C: Metro Station and Inclusionary Zoning	OP, WMATA	Long-Term	N

include the use of a sliding scale for maximum lot occupancy (based on lot			
size), and the application of floor area ratios in single family zone districts			
to reduce excessive building mass. They could also include creation of a			
new zoning classification with a larger minimum lot size than the existing			
R-1-A zone, with standards that more effectively control building expansion	<del>n</del>		
and lot division. Obsolete			
Action LU-2.1.B: Study of Neighborhood Indicators	OP	Short-Term	N

follow up on public reports of vacant buildings, in the city and regularly			
assess the potential for such buildings to support new uses and activities.			
This should include periodic assessment of the city's vacant building			
monitoring and taxation programs and exploring creative ways to deal with	h		
vacant properties and long-term vacant sites. Strategically purchase such			
properties at tax delinquency sales when such properties could be put			
to use for affordable housing.			
Action LU-2.2.B: Education and Outreach on Public Space Maintenance	DPR	Ongoing	N

LU-2.3 Residential Land Use Compatibility			

Residential Zones  As part of the comprehensive rewrite of the zoning regulations, develop text			
amendments which:			
a. Expand buffering, screening, and landscaping			
requirements along the edges between residential and			
commercial and/or industrial zones;			
b. More effectively manage the non-residential uses that are			
permitted as a matter-of-right within commercial and			
residential zones in order to protect neighborhoods from			
new uses which generate external impacts;			
c. Ensure that the height, density, and bulk requirements for			
commercial districts balance business needs with the			
need to protect the scale and character of adjacent			
residential neighborhoods;			
d. Provide for ground-level retail where appropriate while			
retaining the residential zoning along major corridors;

Commercial Zones		1	
As part of the comprehensive rewrite of the zoning			
regulations, consider text amendments that:

a matter-of- right in commercial zones;			
b. Avoid the excessive concentration of particular uses with			
the potential for adverse effects, such as convenience			
stores, fast food establishments, and liquor-licensed			
establishments; and			
c. Consider performance standards to reduce potential			
conflicts between certain incompatible uses Completed			
Action LU-2.4.C: Mixed_Use District with Housing Emphasis	OP	Complete	N

Develop a new mixed_use zoning district, to be applied principally on land			
that is currently zoned for non-residential uses (or that is now unzoned),			
which limits commercial development to the ground floor of future uses and			
requires residential use on any upper stories. Consider the application of			
this designation to Metrorail stations and corridor streets that may currently			
have high commercial vacancies or an excess supply of commercial space,			
including those areas designated as "Main Street Mixed Use Corridors" and			
commercial centers on the Generalized Policies Map. Complete			
LU-3.2 Taking a Hard Look at the District's Industrial Lands			
Action LU-3.12.A: Industrial Zoning Use Changes	OP, OZ, ZC, BZA	Mid-Term	N

Provide a new zoning framework for industrial land, including:

- Prohibiting <u>high-impacthigh impact</u> "heavy" industries in <u>low intensity the C-MPDR</u> zones to reduce the possibility of land use conflicts;
- Prohibiting certain civic uses that detract from the industrial character of <u>exclusively PDR C-M</u> areas and that could ultimately interfere with business operations;
- Requiring special exceptions for potentially incompatible large retail uses in the C-M zone to provide more control over such uses without reducing height and bulk standards. Avoid displacing existing PDR uses or foreclosing opportunities for future PDR uses. Where appropriate, encourage retail or commercial uses that are accessory to PDR uses as a way to activate ground floors;
- Limiting non-industrial uses in the M zone highintensity PDR areas to avoid encroachment by uses which that could impair existing industrial and public works activities (such as trash transfer); and
- Creating an IP (industrial park) district with use and bulk regulations that reflect prevailing activities; and
- Creating a <u>Mmixed\_Uu</u>se district where residential, commercial, and lesser-impact PDR uses are permitted, thereby accommodating live-work space, artisans and studios, and more intensive commercial uses.

Once these changes have been made, <u>update zoning as appropriate</u>. <u>pursue the rezoning of selected sites in a manner consistent with the policies of the Comprehensive Plan</u>. The zoning changes should continue to provide the flexibility to shift the mix of uses within historically industrial areas and

should not diminish the economic viability of existing industrial activities			
or the other compatible activities that now occur in PDR areas.			
Action LU-3.1.B: Industrial Land Use Compatibility	OP	Completed	N
During the revision of the Zoning Regulations, develop performance		1

the neighborhood should be improved with the same objectives. It			
should be designed and constructed to be an iconic neighborhood			
gathering space to adequately meet the open space needs of the rapidly			
growing neighborhood. Special care should be made to improve

Implement the 2003 Southwest Waterfront Development Plan.			
Action AW-2.1.B: Long-Term Improvements	DDOT, DMPED,	Long-Term	Y
Study the feasibility of the long-term improvements identified in the	WMATA, OP, NPS		
Southwest Waterfront Plan, such as a Hains Point Canal (in East Potomac	, ,		
Park), relocation of cruise lines and their infrastructure, a new Yellow Line			
Metro station at the waterfront, and construction of a pedestrian/bicycle			
bridge across the <b>C</b> channel near the Case Bridge.

completing detailed area plans for the Ballpark entertainment district.			
Completed			
Action AW-2.2.C: Buzzard Point Plan	OP, AWC**,	Completed	N
Work collaboratively with the Anacostia Waterfront Corporation in	DDOT, NCPC,	1	
developing a detailed area plan for Buzzard Point. The Plan should address	DMPED		
the future of industrial and utility uses in Buzzard Point, identify concepts			
and standards for new development, and address a range of related urban			
design, transportation, infrastructure, environmental, and community			
service issues. The feasibility of access along the Fort McNair waterfront			
also should be addressed. Completed			
Action AW-2.2. <b>PB</b> : South Capitol Gateway	NCPC, DDOT	Ongoing	Y
Create a civic or commemorative feature of national significance at the			
north end of the Frederick Douglass Bridge to celebrate this location as a			
riverfront and city District gateway.			
Action AW-2.2. <b>EC</b> : South Capitol Transportation Improvements	DDOT	Ongoing	Y
Continue efforts to improve traffic flows and accommodate additional travel			
modes along South Capitol Street, including completion of the South			
Capitol Environmental Impact Statement and the reconstruction of the			
Frederick Douglass Memorial Bridge and related access points.			
AW-2.3 Near Southeast/Capitol Riverfront			
Action AW-2.3.A: Near Southeast Urban Design Plan Implementation	OP, OZ, AWC	Completed	N
Implement the recommendations of the Near Southeast Urban Design			
Framework Plan, including zoning, financing, phasing, and infrastructure			
improvements. Completed			
Action AW-2.3.B: Canal Blocks and Waterfront Park	AWC, OP, DPR	Completed	Y
Create the Canal Blocks Park on the three blocks between M Street and I			
Street that once contained the historic Washington Canal. Create a			
waterfront park of at least five acres along the shoreline at the Southeast			
Federal Center. These two parks should be designed as attractions and			
amenities for Near Southeast residents, employees, and visitors. They			
should be linked to each other and to Garfield Park and the Virginia Avenue			

playground by trails and greenways, and connected to other waterfront open			
spaces by the proposed Anacostia Riverwalk and Trail system. Completed			
Action AW-2.3.CA: Zoning Incentives	OP	Ongoing	N
Continue <u>to develop and apply zoning incentives</u> <u>incentivize</u> to promote			
residential uses within the nNear Southeast areas, such as the Capitol			
Gateway, the former Southeast Federal Center, and downtown zones			
within the Lower Anacostia/Near Southeast Planning Area. Expand			
and intensify zoning incentives that promote affordable housing in			
these areas. Overlay District. Zoning changes should not diminish			
established provisions for transfer of development rights into the Capitol			
South area.			
Action AW-2.3.D: Cushing Place	OP, DDOT	Completed	N
Consider Cushing Place to be an "alley" rather than a "street" for the			
purpose of regulating future driveway locations, thereby ensuring that			
future development may be designed to minimize disruption of the street			
environment with curb cuts, and to maximize access to sunlight.			
Completed			
Action AW-2.3.B: Boathouse Row Recreational Uses	OP	Long-Term	Y
Ensure that zoning and land use guidance are adopted to facilitate the			
use of Boathouse Row as a recreational and community resource.			
Recreational improvements also should include equipment or design			
features that are appropriate for persons of all ages and physical			
abilities.			
AW-2.4 Poplar Point			
Action AW-2.4.A: Poplar Point Planning	DMPED, OP, DPR	Mid-Term	Y
Complete a future analysis for Poplar Point to define the site design,			
circulation, infrastructure, land use program, park, and urban design			
to guide future development and to facilitate the land transfer from the			
<u>federal government to the District.</u>			
Action AW-2.4.B: Poplar Point Long-Range Transportation Improvements	DDOT, OP	Completed	N
As recommended by the 2003 Target Area Plan, assess the feasibility of			
long-term modifications to the regional highway system on the perimeter of			
Poplar Point. These include depressing I-295 to facilitate crossings from			

Historic Anacostia to the waterfront, improving the connection between			
Suitland Parkway and South Capitol Street, and building a tunnel between			
I-295 and I-395. Completed			
AW-2.5 Southwest Neighborhood			
Action AW-2.5.A: Greenleaf PUD	DCHA, DMPED,	Long-Term	Y
Support the redevelopment of DCHA-controlled Greenleaf affordable	OP		
housing parcels consistent with the increased density of Future Land			
Use Map designations as outlined in the Southwest Neighborhood Plan			
if development is achieved through a PUD that meets the following			
<u>criteria:</u>			
<ul> <li>Conforms to the design guidelines for each parcel</li> </ul>			
as outlined in the Small Area Plan;			
<ul> <li>Provides replacement housing for all the existing</li> </ul>			
affordable units within the development or the			
immediate Southwest neighborhood;			
<ul> <li>Encourages a mixed-income community through</li> </ul>			
the inclusion of market rate units and, to the			
extent practicable, moderate-income housing; and			
<ul> <li>Achieves a significant level of green design in</li> </ul>			
terms of both site and building design to			
contribute to healthy living and improved			
environmental performance.			
Action AW- 2.5.B: Lansburgh Park	DPR, OP, DOESS	Long-Term	Y
Redesign Lansburgh Park to become a safer, more accessible central			
park for the Southwest community. Create a signature design and			
beautiful park space that serves as a centerpiece for redevelopment of			
surrounding properties like the Greenleaf complex and the Southwest			
government cluster. Any future design also should enhance community			
resilience by helping to address and manage flooding issues.			
Action AW-2.5.C: Storage Facility at Jefferson Middle School Academy	DGS	Short-Term	N
Complete a feasibility study to determine the need for the existing			
storage facility located adjacent to the Jefferson Middle School			
Academy. Study the option of removing the storage facility to expand			

the recreation space or repurposing the building to better serve the			
community.			
AW-2.6 Buzzard Point			
Action AW-2.6.A: Buzzard Point Transportation/Riverwalk Connections	DDOT, DOEE	Long-Term	Y
Implement a well-connected street grid for all transportation modes			
that supports future transit expansion and comfortable walking and			
biking. Reconnect streets, where possible, and redesign Second Street			
SW as the inland extension of the Anacostia Riverwalk. Complete new			
sections of the Anacostia Riverwalk as each new development in			
<b>Buzzard Point is constructed, extending a 75-foot waterfront esplanade.</b>			
Use aquatic vegetation along the shoreline as part of the riverwalk			
design to mitigate flooding, soften the river's edge, and clean the water.			
Initiate a workshop with Fort McNair to explore extending the			
Anacostia Riverwalk around the point.			
Mid-City Area Element			
MC-1.1 Guiding Growth and Neighborhood Conservation			
Action MC-1.1.A: Rezoning Of Row House Blocks	OP, OZ, ZC	Completed	N
Selectively rezone well-established residential areas where the current			
zoning allows densities that are well beyond the existing development			
pattern. The emphasis should be on row house neighborhoods that are			
presently zoned R-5-B or higher, which include the areas between 14th and			
16th Streets NW, parts of Adams Morgan, areas between S and U Streets			
NW, and sections of Florida Avenue, Calvert Street, and 16th Street.			
Completed			
Action MC-1.1.B: Overconcentration of Liquor-Licensed Establishments	ABCB, OZ	Completed	N
Identify the potential for regulatory controls to address the problem of		_	
excessive concentrations of liquor-licensed establishments within the			
neighborhood commercial districts, particularly on 18th Street and			
Columbia Road. Completed			
Action MC-1.1. <del>CA</del> : <del>Transit</del> Multimodal Improvements	1

Avenue NW, and dedicated rush hour bus lanes along 16th Street NW.			
Action MC-1.1. DB: Off-Street Parking	DDOT	Mid-Term	N
Support the development management of off-street parking facilities			
parking capacity in the Columbia Heights, Adams Morgan, and U Street			
Mid-City commercial districts, and including the implementation of			
parking management programs that maximize the use of existing parking			
resources (such as the <b>DC USA garage and</b> Reeves Center garage),			
minimize traffic associated with "circling" for spaces, and reduce conflicts			
among users.			
MC-1.2 Conserving and Enhancing Community Resources 2009			
Action MC-1.2.A: <u>Tailored Design Guidelines</u> Conservation Districts	OZ, OP	Mid-Term	N
Consider the designation of design guidelines for Lanier Heights, Reed-			
Cooke, Columbia Heights, Eckington, Bloomingdale, Park View, and other			
Mid-City neighborhoods as "Conservation Districts." Adopt			
comprehensive design guidelines for historic districts that tailor			
historic district review standards to the specific preservation concerns			
in each community and Design standards and review procedures for such			
districts would be less rigorous than those used in Historic Districts, but			
would strive for more compatible infill development and maintenance of			
historic building scale, mass, and height conditions.			
Action MC-1.2.B: Library Expansion	DCPL	Long-Term	N
Modernize and upgrade the Mount Pleasant Branch Library, including			
expansion of library services. As funding allows, consider development of a			
new library in the eastern portion of Columbia Heights.			
Action MC-1.2.C: Recreation Center	OP, DPR	Long-Term	N
Pursue development of a new recreation center in the eastern part of the			
Planning Area, serving the Bloomingdale/Eckington/LeDroit Park			
community. This area was recognized to be particularly deficient for such			
uses as needing indoor and outdoor recreation space in the 2006 Parks			
Master Plan.
